THE NEW DORMITORY.

Contract Let and Work Begun—A Fine Structure.

The contract for the erection of the Worcester Academy dormitory, according to the new specifications, was awarded last Thursday to Messrs. F. W. H. and Davis, of Neosho, for \$7,769.22. There was a considerable alteration in the plans originally selected, each of the three stories being raised one foot, and about forty per cent. more lumber will be required. The additional cost is about \$1,000 over the first contract. The structure is to be 40x80 feet, three stories and a basement in height, of brick, and in every way a creditable building. Very shortly after the papers had been signed, appropriate exercises were conducted, and before the train left for the east, ground had been broken and the work was under way. The American Home Missionary Society in the erection and maintenance of Worcester Academy and this new building have done and are doing a great thing for Vinita and in our present and prospective prosperity we should not be unmindful of our duty in return. It is doubtful if this building can be put into use as it should be for the accommodation of the young lady students for less than \$10,000, and a good share of this money ought to be raised right here at home. This proposition is not laid down from the standpoint of charity, but on common, every-day business sagacity, and should be so considered.
